Making Samaná a port of call gives cruise lines great flexibility in scheduling vessels in the eastern and southern Caribbean's sometimes crowded routes. Samaná Bay is encircled by the Peninsula to the north and Dominican Republic's mainland to the south, making the peaceful bay ideal for cruise ship anchorage.

BEACHES

Playa Frontón

Playa Cosón

The Samaná Peninsula boasts magnificent beaches with silky sand gently lapped by turquoise water. These are some of the most secluded and quiet beaches among Dominican Republic's 1,000 miles (1,600 kilometers) of coastline.

PLAYA PORTILLO: East of Las Terrenas is Portillo, an unspoiled sandy beach popular for walking along the calm, shallow waters in the golden sand.

PLAYA BONITA: This beautiful beach is a spectacle of nature with calm, clear water and coconut trees dipping into the sea and grass bordering the unspoiled beach. Playa Bonita is located in Las Terrenas and is decorated with numerous boutique hotels, private villas and famous restaurants, ideal for those looking for natural beauty, peace and quiet.

PLAYA COSÓN: An ideal beach for walking and nature observations, Cosón is located west of Las Terrenas and consists of calm waters with a range of colors, river mouths, and strong winds for kite surfers and waves for surfing. The surrounding area is also developed with gated communities, private villas and hotel complexes.

PLAYA LAS BALLENAS: Located in Las Terrenas, just a short distance away from the center of town, lays this long beach of white powder sand and well-established water sports facilities. The Marico river mouth delights the little ones who often play in the cool waters.

PLAYA EL LIMÓN: Located in El Limón, east of Las Terrenas and Portillo, this spectacular golden-sand, 3-mile (4.8 kilometers) beach has a beautiful view of Cayo El Limón ('Cayo El Coquito' or small coconut as the locals call it). Visitors can delight in areas with calm crystalline, shoulder deep pools or marvel in the power of the sea in other sections.

Playa Rincón

PLAYA MORÓN: Morón’s charm is seen in its lush green surroundings, golden sand and sea that constantly changes colors. Visitors of this deserted beach may also find ancient canons from the days of the pirates.

PLAYA RINCÓN: Considered the second best beach in the world by Condé Nast Traveler, Rincón is best known for its calm, crystalline waters just waiting to delight visitors. Located in the mouth of a small bay, this beautiful and quiet white-sand beach is surrounded by coconut and almond trees. One side of the beach remains relatively undeveloped and sheltered, while along the other, cliffs segue into the waters of the ice-cold Caño Frío River.

PLAYA EL VALLE: Defined by its name, El Valle, meaning “the valley”, is located between two mountains and is north of the Bay of Samaná. Surfers will delight at El Valle due to the beach’s ideal surfing waves. It’s also a fishing zone with gorgeous turquoise water and a stretch of golden sand which hugs the surrounding rolling hills. Enjoy seafood on the beach and remain close to the shore when swimming to avoid strong waves.

PLAYA LAS GALERAS: Often referred to as “The Fisherman’s Beach,” Las Galeras is a quiet beach in the most northeastern point of the country. The highlight of this beautiful beach is the recreational diving aquarium. Visitors can purchase fresh fish, sip fresh coconut water and even join a boat tour to other beaches for whale watching.

PLAYA FRONTÓN Reachable by boat from Las Galeras or by a longer hiking trip, the impressive Playa Frontón coast is a spectacular sight. Its shining fine white sand is at the foot of a 295 feet (90-meter) rocky cliff dotted with bright green coconut trees. It is popular for rock climbing and snorkeling due to its turquoise waters full of corals and sea urchins. Playa Frontón has also been featured on episodes of the international series “Survivor,” given its impressive coastal landscape, its mysterious caves and the front reef that protects it. Bring rubber shoes to protect your feet from sea urchins and observe the abundant marine life and corals in the area.

Las Terrenas is the most modern and commercial town in the peninsula with hotels, gourmet restaurants, beach bars, craft shops, supermarkets, sports facilities, tour operators and other services, all of which reflect a rich European influence.

LAND WHALE OBSERVATORY: The Ministry of Environment opened Dominican Republic's first land whale observation point in order to celebrate the annual whale watching season. The observatory is located at Punta Balandra on the Southeast Coast and allows visitors to view the thousands of humpback whales that migrate to the protected area of the Marine Mammal Sanctuary in Samaná Bay by land rather than boat.

THE WHALE MUSEUM: A unique community space where visitors can connect with the great family of humpback whales that each year make Samaná their home. The museum shows the public details of the voyage made by these cetaceans from the sanctuaries to the North, to Samaná Bay, where they come to mate and give birth.

MARINA PUERTO BAHÍA: A full-service marina on the Samaná Bay very close to the cruise facilities. Numerous secluded safe harbors, intimate caves, bountiful fishing grounds, great stretches of sandy beaches and other alluring destinations invite exploration and offer memorable days of pure pleasure. Local artisans also work with elements of palm, bamboo, decorative objects with yagua and coconut that is widely used in various craft pieces. Others make beautiful pieces of crafts with higüeros. There are many boutiques that offer beachwear and jewelry from European designers.

GASTRONOMY & NIGHTLIFE: A main attraction in Las Terrenas is "Pueblo de Los Pescadores", a row of small restaurants and bars right on the beach that offer a wide range of options like seafood, tapas, Italian, and American, among others. It also is rightly celebrated for its busy but laid-back after-dark ambience, particularly at weekends when locals and tourists mingle and you can get a taste of the local sounds. The Samaná Peninsula is known for the use of coconut in their signature dishes such as seafood or fish with coconut, in a flavorful sauce of tomato, garlic, and coconut milk. Also, the local coconut bread and coconut sweets are very popular.

EXCURSIONS

Salto El Limón

HUMPBACK WHALES OBSERVATION: Each winter 1,500 to 2,000 whales migrate to the warm crystalline waters of the Bay of Samaná with intentions of mating and giving birth. Whale-watching season begins in mid-January and continues through the end of March, however, excursions are available as long as whales remain in the bay. Guests can view the gentle creatures at the Marine Mammals Sanctuary or at the Land Whale Observatory. The 200 square mile (518 square kilometers) sanctuary was established in 1966 and continues to protect the thousands of humpback whales who migrate from the arctic waters of the north.

SALTO EL LIMÓN: Considered the most spectacular of Dominican Republic's many waterfalls, El Limón captivates as it cascades 164 feet (50 meters) into a pool where visitors may take a dip. To reach the falls, horseback riding is a popular option among adventure tourists and also provides a beautiful view of the surrounding forest and natural pool below.

DISCOVER SAMANÁ: Visit Santa Bárbara de Samaná, which was discovered in 1756 and originally intended to be the country's capital. The city's pedestrian bridge offers panoramic views of Samaná and visitors are sure to enjoy the local market with fresh fruits and fish. Guests can also visit La Churcha, also known as the Dominican Evangelical Church. The Churcha is the first African Wesleyan Methodist Church of Samaná and was made from materials originally shipped over by the English Methodist Church

in the 1800s, thus maintaining any African-American culture left in Samaná.

JEEP SAFARI ADVENTURE: Set out on an adventure in an "all-terrain 4x4" where you'll have the opportunity to taste the flavorful Dominican coffee and the various tropical fruits surrounding you. Also, you will visit the Lulú waterfall at El Valle, where you can enjoy a dip in the natural pool, and then continue on to take the Loma de la Piña Trail through lush tropical vegetation, eventually leading you back to the bay.

ZIP LINE TOURS: Visitors are now able to experience a new dimension of entertainment in Samaná. Adventure seekers can zip for more than 1000 feet (300 meters) between the platforms, flying safely over coconut palms and lush green valleys with spectacular views of Samaná Bay and Cayo Levantado. The tour lasts approximately 3 hours and includes expert trainers, refreshments and fresh Dominican grown fruit. This tour is available at several locations in the Samaná area such as Juana Vicente, El Valle and Caño Hondo.

SCUBA DIVING: The Samaná Peninsula is made up of a rocky coastline with high cliffs hiding an exciting underwater world of sheer drop-offs and pinnacles that rise from 165 feet (49.5 meters) to within 15 feet (4.5 meters) of the surface. Between January and March, humpback whales can be heard

underwater as they migrate toward Banco de la Plata. Divers can discover reef sites featuring undercuts, as well as series of large caves, tunnels and swim-throughs.
